

Revised 4/3/17
HONORS COURSES
AUTUMN 2017

*****NEW THIS SEMESTER*****

Davidson Honors College students can register for most Honors courses using Cyberbear. Honors students do not need an override for most Honors courses. To register for an Honors course, just wait until you are eligible to register for autumn semester classes, and then add it on CyberBear.

Honors students will have priority registration in ALL courses beginning on April 4, 2017 at noon. Honors courses will remain open to Honors Students during the week of priority registration. After priority registration UM students can register for Honors courses either through Cyberbear, or by requesting permission to enroll at the DHC front desk, or by the instructor, for those courses with override restrictions.

There are a few departmental Honors courses that require an override – these courses are marked “consent of instructor required,” and you should contact the instructor to obtain permission to enroll.

INTRODUCTION TO HONORS (HONR 120) (1 cr.)

All *freshmen* DHC students are required to take one of the following Introduction to Honors classes. Enrollment is restricted to DHC students. Offered fall semester only.
