

Repeat Course Policy

Due to demand and/or space limitations, MOLLI offers repeat courses from year to year (i.e. Exploring the Universe, Beginning Bird Watching, Understanding Color). In order to give all students an opportunity to take these courses, an allocation process is used and students are registered in the course based on the following preference order:

- a. Students on the waitlist from previous years that have not taken the course
- b. Students who have not previously taken the course
- c. Students that have taken the course in the past

We know it is frustrating not knowing immediately if you have gotten into the course, but it provides a fair and equitable access for all MOLLI members.
